DETAILED ACTION

1. This communication is in response to applicant's amendment filed September 10, 2007. Claims 1-10 are currently pending in this case. Claims 1, 2, 5, and 8 are currently under examination.

Election/Restrictions

2. Applicant's election of claims 1, 2, 5 and 8 in the reply to the requirement for election of species filed on September 10, 2007 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as failing to set forth the subject matter which applicant(s) regard as their invention

5. Claims 1 is directed to a clearinghouse which is a server which is an apparatus.

6. Claims 2, however, is directed to a "mutual benefit association" which exists outside the server of claim 1. Thus the scope of claim 2 is unclear to one of ordinary skill. (*In re Zahn*, 617 F.2d 261, 204 USPQ 988(CCPA 1980)).

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1, 5, and 8 are rejected under 35 U.S.C. 102(b) as being unpatentable over Kennedy, II et al (US 6,240,295).

9. Regarding claim 1 –

Kennedy discloses a global information clearinghouse (GCCIC) (“clearinghouse” fig 1-22), comprising: a GCCIC system having a central information repository (“platform” col 4 ln 25-40) wherein information related to the transportation of goods is processed and stored, the repository, comprising: a processor section including routines to operate the GCCIC(e.g. col 4 ln 40-55), a transaction section that tracks transactions recorded in the GCCIC, and a data section that records the information and provides an interface to users of the GCCIC (e.g. col 4 ln 56-65, col 6 ln 1-10, col 6 ln 28-32); and a set of rules for operation of the GCCIC (e.g. col 4 ln 40-55).

10. Regarding claim 5 –

Kennedy discloses a Cargo Container Information Clearinghouse (GCCIC) (“clearinghouse” fig 1-22); comprising: a set of rules for operation of the GCCIC system (e.g. col 4 ln 40-55).

11. Regarding claim 8 –

Kennedy discloses a method for operation of a Cargo Container Information Clearinghouse (GCCIC) (“clearinghouse” fig 1-22), comprising: providing a GCCIC system including a central information repository (“platform” col 4 ln 25-40); providing a set of rules for operating the GCCIC system(e.g. col 4 ln 40-55); and monitoring compliance with the adopted rules. (e.g. col 7 ln 4-18)

Claim Rejections - 35 USC § 103

12. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

13. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kennedy in view of “Farmer’s Mutual Benefit Association”.

14. Regarding claim 2 –

Mutual benefit associations are old and well-known. See, e.g. “Farmer’s Mutual Benefit Association” here attached (http://en.wikipedia.org/wiki/Farmers'_Mutual_Benefit_Association). Such associations include different entities which may or include both private and public sector entities,

and they propose or make up rules to be followed by all of them. See also <http://delcode.delaware.gov/title18/c055/index.shtml>.

15. KSR forecloses Appellant's argument that a specific teaching is required for a finding of obviousness. KSR, 127 S.Ct. at 1741, 82 USPQ2d at 1396. Further, Applicants are merely taking known elements and combining them to obtain a predictable result.

16. Examiner's note: Examiner has cited particular columns and line numbers in the references as applied to the claims above for the convenience of the applicant. Although the specified citations are representative of the teachings in the art and are applied to the specific limitations within the individual claim, other passages and figures may be applied as well. It is respectfully requested from the applicant, in preparing the responses, to fully consider the references in entirety as potentially teaching all or part of the claimed invention as well as the context of the passage as taught by the prior art or disclosed by the examiner.
